

AMUNDI HK - DISRUPTIVE OPPORTUNITIES EQUITY FUND

MONTHLY
REPORT

30/04/2026

EQUITY ■

1. This is an equity fund invested in global equities and money market instruments (including cash). The Fund mainly invests in the shares of companies that are either established on or which benefit from, fully or partly, disruptive innovation business models, i.e. new business models that can challenge or overtake common ones. The value of the Fund could then be more volatile and the Fund may suffer significant losses.
2. The business of disruptive innovative companies may be subject to higher uncertainty and more fluctuations in their performance, therefore the Fund is exposed to higher market volatility and higher turnover ratios.
3. Investing in this Fund may involve equity risk, market and volatility risk, currency risk and concentration risk. It may also involve risk related to the use of Financial Derivative Instruments (FDI) for hedging and investment purposes, and risk of small and medium sized companies.
4. As RMB is not freely convertible, the investment in RMB classes may be adversely affected by the fluctuation in the exchange rate between RMB and other foreign currencies and the liquidity of RMB at the relevant time. In case of sizable redemption requests for the RMB classes, the Manager has the absolute discretion to delay any payment of redemption requests from the RMB classes.
5. For hedged classes, there is no guarantee that the hedging techniques employed by the Manager will fully and effectively achieve the desired result and effect. Furthermore the volatility of the hedged classes may be higher than that of the equivalent class denominated in the Fund's base currency. If the counterparties of the instruments used for hedging purpose default, investors of the hedged classes may be exposed to currency exchange risk of the currency of denomination of the relevant class on an unhedged basis and may therefore suffer further losses.
6. For Distribution classes, the Manager may at its discretion determine to pay dividends out of income or capital of the Fund. In addition, the Manager may at its discretion pay dividends out of gross income while charging / paying all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable income for the payment of dividends by the Fund, in which case, the Fund is effectively paying dividends out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such distributions may result in an immediate reduction in the net asset value per unit of the Fund.
7. Investors should not make investment decisions solely based on this marketing material.

Key information

Fund size : 168.75 (million USD)
Fund currency : USD
Reference index : MSCI World Net Total Return Index
(net dividends reinvested)
Morningstar Category :
EAA FUND GLOBAL LARGE-CAP GROWTH EQUITY

Investment objective

To outperform global equity markets over a long term period by investing in the shares of companies which are either established on or which benefit from, fully or partly, disruptive innovation business models.
